# TO THE PUBLIC.

IN presenting to our patrons the 1895 edition of the BUFFALO CITY DIRECTORY, we feel confident that we are furnishing them with a book which will be appreciated by those who have occasion to use it, as it has been carefully compiled. Aside from the list of names, the general information contained in the appendix will be of use to every business man, having been carefully revised up to date of going to press. We have this year located all of the hotels and public buildings of the city in alphabetical order in the list of names.

The Directory of 1895 contains 1,160 pages of names, the total number being 106,953 names, being an increase of 1,889 names over the previous year, which, taking into consideration the general depression in business circles during the past year, shows that Buffalo has not only held its own but continued to increase in population even under adverse circumstances, our present population being 365,477.

The near approach of the Electric Power from Niagara Falls which is to make Buffalo the leading manufacturing city of this country, has stimulated the building industries of our city, as shown by the large number of fire-proof business buildings now in process of erection within our corporate limits. And the prospects now are that Buffalo will soon take its place as the leading manufacturing city of the United States, offering as it does to all manufacturers cheap and unlimited power, with the finest rail and water transportation facilities of any city in the world, as well as an abundant supply of pure water for household purposes, at moderate cost.

Thanking our patrons for their favorable appreciation of our work in the past, as shown by our rapidly increasing subscription list, we will say that our aim in the future will be to place before them an up-to-date Directory, that will meet all their requirements at date of issue.

# BUFFALO

# STREET AND AVENUE DIRECTORY.

## EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting-point of the street, measuring along the line of the street, twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building or a vacancy or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 499 **Main Street,** on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.

BUFFALO LAW SCHOOL.

Lecture Room over 158 Pearl.

Organized June, 1887, under the auspices of the Judiciary and the Bar of the City of Buffalo. The faculty and lecturers upon special topics are either judges now upon the bench, or lawyers in active practice, who will bring to the discharge of their duties ripe experience, made more valuable by their constant engagement in the decision and trial of the many new questions of law which rise in the practice of their profession.

It will be remembered that the Buffalo Law School was organized in the spring of 1887, as a department of Niagara University, by Hon. Charles Daniels, Hon. Charles Beckwith, and others of the most prominent members of the Buffalo Bench and Bar.

In the month of March, 1891, it severed its friendly relations with the University at Suspension Bridge. By a recent change in the organization of the School it has become allied to the University of Buffalo, as its Department of law.

The advantages of the School are great; its power as an educational factor is recognized and approved by the leading educators of the State. Students taking their course of instruction in this department will receive the degree of Bachelor of Law from the University of Buffalo.

Officers: Charles Daniels, Dean; E. Corning Townsend, Secretary and Treasurer.

The course of instruction to be followed will occupy two years' time. Each year will be divided into two terms of seventeen weeks each, beginning the first week in October and closing the last week in May.

The situation of the School at the City of Buffalo is a peculiarly favorable one. During most of the college year four Courts of General Jurisdiction are in session, in which the trial of important cases often by distinguished council, are constantly in progress.

Special terms of the Supreme Court and of the Superior Court of Buffalo are held daily, at which judges sit to hear and determine questions touching almost every branch of the law. Terms of the United States Courts are also held in the United States Court rooms; two General terms of the Supreme Court and General terms of the Superior Court of Buffalo are held yearly.

Students will thus have the opportunity to observe the trial of causes before judges and juries, and to hear the argument of legal questions in appellate courts.

All communications should be addressed to E. Corning Townsend, Secretary and Treasurer, 43 White Building.

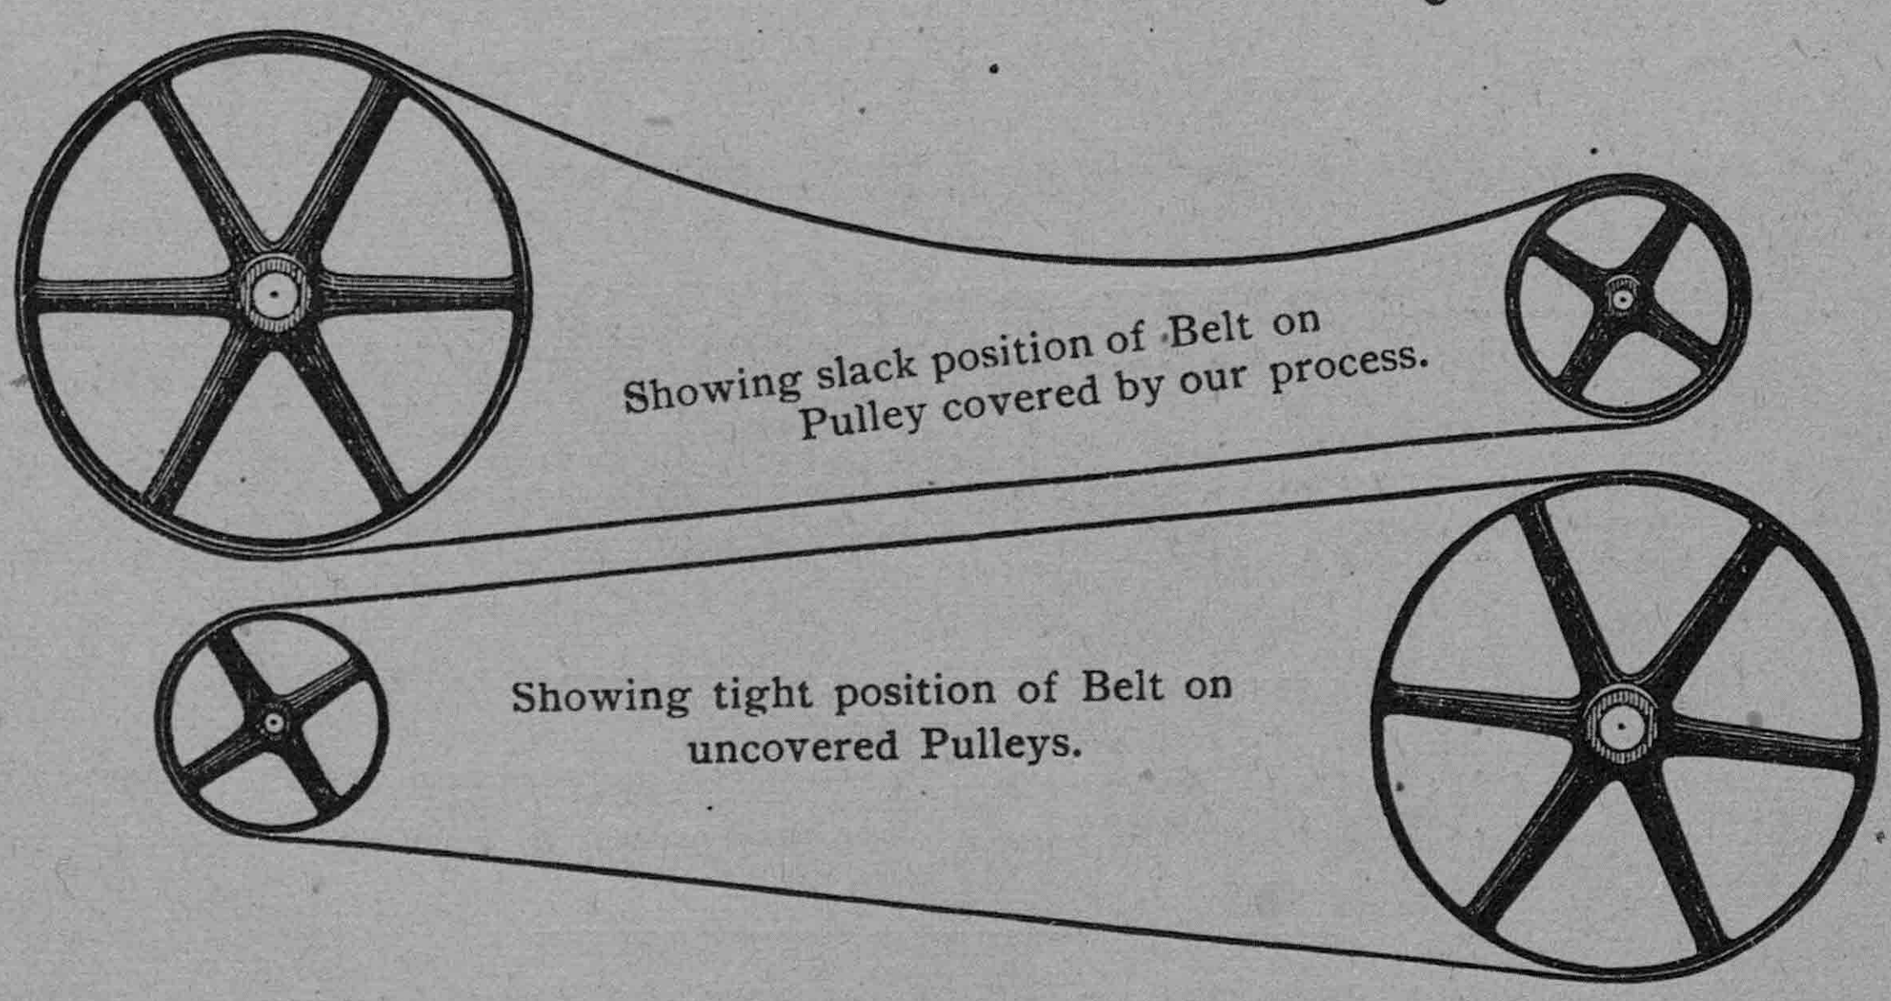
## MANUFACTURERS, ARE YOU BOTHERED BY BELTS SLIPPING?

BY THE USE OF THE

# Hawes Patent Canvas Pulley Covering



We guarantee to give MORE POWER with a SLACK BELT ON PULLEYS COVERED BY OUR PROCESS than can be had with a tight belt on uncovered pulleys. We will SAVE YOU POWER and PRESERVE YOUR BELT. A careful estimate of the loss of power from a slipping belt, together with the wear and strain on a tight belt, will convince you of the economy of our system. Our process is simplicity itself and we vouch for its durability.
